

IMT CABLE

Cables Manufacturers in india

Introduction: IMT Cable Pvt Ltd

IMT Cables, a flagship of RAS GROUP, is a leading manufacturer in India's cable industry. With over five decades of familial expertise, IMT specializes in various cables like house wires, elastomeric (Rubber) cables, welding cables, and more. Boasting modern machinery and a fully equipped lab with stringent quality controls, IMT ensures precision and excellence in every product.

Their commitment to quality is evident through the ISI mark on their products, meeting international standards such as British Standard, ASTM, VDE, IEC DIN, and custom specifications. IMT Cables is synonymous with reliability, innovation, and top-tier solutions in the cable manufacturing realm.

Imt Cable Pvt Ltd Products

IMT Cables, a flagship of RAS GROUP, is a premier manufacturer in India's cable industry, offering a diverse range of high-quality products. Specializing in EPR cables, CSP cables, PCP cables, silicone cables, mining cables, and elastomeric cables, IMT ensures top-tier solutions for various industrial needs. With over five decades of familial expertise, IMT prioritizes precision and excellence, evident through its modern machinery and stringent quality controls.

Trs Cables

IMT Cables proudly presents TRS cables, a vital component in diverse industrial applications. TRS cables, known for their exceptional durability and reliability, are extensively used in:

1. Industrial machinery wiring
2. Power transmission systems
3. Control panels
4. Automation equipment
5. Electrical appliances

Mining Cables

IMT Cables' Mining Cables are designed for rugged environments, ensuring reliable power transmission in mining operations worldwide. These cables excel in harsh conditions, offering durability, flexibility, and resistance to abrasion, moisture, and chemicals. Their uses include:

1. Underground mining.
2. Surface mining.
3. Tunneling applications.
4. Heavy machinery and equipment.
5. Mining conveyors.

Epr Cables

EPR cables by IMT Cables offer exceptional durability and flexibility, making them ideal for demanding industrial applications. Key features include resistance to heat, chemicals, and abrasion. Common uses include:

1. Power distribution in heavy industries.
2. Underground wiring in construction projects.
3. Marine and offshore installations.
4. High-temperature environments such as foundries and steel mills

Welding Cables

IMT Cables' Welding Cables are a cornerstone of our product line, engineered for durability and reliability in welding applications. With superior conductivity and flexibility, our welding cables ensure seamless power transmission, making them ideal for various welding processes. Trust IMT Welding Cables for optimal performance and safety in your welding operations.

1. Arc welding
2. MIG welding
3. TIG welding
4. Resistance welding
5. Spot welding

Why Choose IMT Cable Pvt Ltd

01. Quality Assurance:

02. Diverse Product Range

03. Experience and Expertise
